NOTES																													
2% FUNC=SFL BATH PR NOT WORKING																													

The diagram shows a building footprint with a central rectangular area and two smaller rectangular areas attached to the top and bottom edges. The central area is labeled "UAT", "SFL", "FFL", and "BMT" in blue text. The top and bottom areas are labeled "EFP" and "OFF" in red text, respectively. Dimensions are provided for each section: the top area has a width of 12 and a height of 6; the central area has a width of 32 and a height of 19; the bottom area has a width of 19 and a height of 6. The total width of the footprint is 32, and the total height is 32. The diagram is overlaid on a yellow background.

A photograph of a two-story white house with a gabled roof and dark shutters, surrounded by green trees. The house has white horizontal siding and a dark grey shingled roof. There are several windows with dark shutters. The house is set against a backdrop of lush green trees.A photograph of a two-story white house with a gabled roof and a brick chimney. The house features a front porch with white columns and decorative brackets. The exterior is clad in white horizontal siding, and the windows have dark shutters. The house is surrounded by lush green trees and shrubs, with a paved driveway in the foreground.
