The diagram shows a large rectangle divided into several smaller rectangles by blue and red lines. The rectangles are labeled with numbers and names:

- SFL**: A large rectangle on the left, labeled with 28 on the left side and 36 on the top and bottom sides.
- FFL**: A rectangle in the center, labeled with 18 on the left and right sides and 16 on the top and bottom sides.
- PAT**: A rectangle at the top center, labeled with 12 on the left and right sides and 16 on the top side.
- GAR**: A rectangle on the right, labeled with 22 on the top and bottom sides and 18 on the right side.
- OFP**: A small rectangle at the bottom center, labeled with 4 on the left and right sides and 16 on the top and bottom sides.
- BMT**: A small rectangle at the bottom left, labeled with 6 on the bottom side.

The diagram is used to illustrate the calculation of the area of a specific region, which is the area of the rectangle labeled **FFL**.
