[illegible]

The diagram illustrates a water distribution network layout. The central part of the network is a large rectangle outlined in blue, labeled 'TQS FFL BMT'. Above this central rectangle is another blue-outlined rectangle labeled 'SFL FFL BMT'. To the left of the central rectangle is a red-outlined rectangle labeled '11 EFP 11'. To the right is a red-outlined rectangle labeled 'EFP GAR'. Below the central rectangle is a red-outlined rectangle labeled 'OEP4'. The network is connected by pipes, with various numerical values indicating pipe lengths or elevations. The top of the network is connected to a red-outlined area labeled 'WDK' with a value of 2.83. The bottom of the network is connected to a red-outlined area labeled 'OEP4' with a value of 6. The diagram shows the layout of the pipes and the relative positions of the reservoirs, with various numerical values indicating pipe lengths or elevations.

A photograph of a white, single-story house with a dark roof and a chimney, surrounded by large trees and a green lawn. The text "70 PLEASANT ST" is overlaid in large, bold, black letters.
