[illegible]

The diagram shows a building layout with dimensions and area calculations. The layout consists of a large rectangle with a smaller rectangle attached to its top side.

Dimensions:

- Top side: 10 (left), 12 (middle), 14 (right)
- Left side: 24
- Right side: 24
- Bottom side: 36
- Top side of the smaller rectangle: 12 (left), 14 (right)
- Left side of the smaller rectangle: 20
- Right side of the smaller rectangle: 20

Area Calculations:

- Area of the smaller rectangle (top): $12 \times 20 = 240$
- Area of the larger rectangle (bottom): $36 \times 24 = 864$
- Total area: $240 + 864 = 1104$

Labels:

- WDK (Work Desk) is located in the smaller rectangle.
- FFL (Floor Level) is located in the larger rectangle.
- BMT (Building Material) is located in the larger rectangle.

A photograph of a single-story house with white horizontal siding and a dark grey or black shingled roof. The house features a white front door with a small arched window above it, flanked by two windows with white frames. To the left of the door are two more windows. A large, thick tree trunk is visible on the far left, and a dense forest of green trees forms the background. The house is partially shaded by the trees.A photograph of a white, single-story house with a dark roof, situated on a green lawn. A large tree is on the left, and dense foliage is in the background. The text "37 HELEN CIR" is overlaid in large, bold, black letters.
