Figure 1: A schematic diagram of a 32-bit floating-point number layout. The layout is divided into three main sections: a 32-bit WDK (Word Data Key) at the top, a 30-bit SFL (Significant Figure Length) in the middle, and a 30-bit BMT (Bit Mask Table) at the bottom. The WDK section is further divided into a 14-bit FFL (Floating-Point Length) and a 14-bit CRL (Control Register Length). The SFL section is divided into a 12-bit HST (Half-Significant Figure Length) and a 12-bit FFL (Floating-Point Length). The BMT section is divided into a 13-bit HST (Half-Significant Figure Length) and a 13-bit FFL (Floating-Point Length). The diagram also shows various bit fields and their lengths, such as 32, 30, 28, 14, 12, 13, 10, 8, 7, 6, 5, 4, 3, 2, 1, 0, and 1.

A two-story house with light-colored horizontal siding and a dark grey shingled roof. A large, leafy green tree stands to the left of the house, casting shadows on its side. The house features a small front porch with a gabled roof and a dark door. Several windows with dark frames are visible. The house is set on a green lawn with some shrubs and a stone border in the foreground. The sky is blue with scattered white clouds.
