NOTES																										

The diagram shows a rectangular building footprint with a total width of 40 and a total depth of 26. The footprint is divided into three sections: a large central area labeled 'FFL BMT', a smaller area labeled 'EFP', and a rectangular area labeled 'WDK'. The dimensions of these sections are as follows:

- The central 'FFL BMT' area has a width of 22 and a depth of 16.
- The 'EFP' area is a rectangle with a width of 6 and a depth of 16.
- The 'WDK' area is a rectangle with a width of 6 and a depth of 8.

The total width of 40 is the sum of 22 and 18 (the width of the 'EFP' and 'WDK' areas combined). The total depth of 26 is the sum of 16 and 10 (the depth of the 'EFP' and 'WDK' areas combined).

A photograph of a single-story Cape Cod style house. The house features light blue horizontal siding and a grey shingled roof. A prominent red brick chimney is located near the center. The front entrance is sheltered by a small porch with white picket railings and a white door. To the right of the main house is a detached garage with a white door and light blue siding. The house is set on a green lawn with a gravel driveway leading to the garage. Mature trees and a cloudy sky are in the background.
