The diagram shows a 2D hexagonal lattice with red and blue hexagons. Red hexagons are labeled PAT, OSP, PAT, GAR, and QFP. Blue hexagons are labeled FFL BMT and TQS FFL BMT. Numbers are placed in the hexagons or between them, indicating values. Red numbers are associated with red hexagons, and blue numbers are associated with blue hexagons. The lattice is bounded by a red line on the left and top, and a blue line on the right and bottom. The overall shape is a large rectangle with a smaller rectangle attached to the top right.

A large, dark gray, two-story house with a gambrel roof. The house features white trim around the windows and doors. On the left side, there is a two-car garage with white doors. A central entrance has a white door and a small porch. To the right, there are several windows, some with white shutters. The house is surrounded by a green lawn and a paved driveway. In the background, there are tall, leafy trees under a clear blue sky.
