

RECORD PLAN

BIRCHLAND PARK AVENUE

RECONSTRUCTED SANITARY & STORM SEWERS
AND ROADWAY RECONSTRUCTION

BOARD OF SELECTMEN
TOWN OF EAST LONGMEADOW, MASS.

TABLE A-1000
HOLYOKE, MASS.

SCALE: HORIZONTAL 1" = 40'
VERTICAL 1" = 10' AUG. 1953

NOTE:
1. Elevation of ground surface is shown by dashed line.
2. Elevation of sewer invert is shown by solid line.
3. Elevation of manhole top is shown by solid line.
4. Elevation of street surface is shown by dashed line.
5. Elevation of sidewalk surface is shown by dashed line.
6. Elevation of building footings is shown by dashed line.
7. Elevation of building foundations is shown by dashed line.
8. Elevation of building walls is shown by dashed line.
9. Elevation of building roofs is shown by dashed line.
10. Elevation of building floors is shown by dashed line.
11. Elevation of building basements is shown by dashed line.
12. Elevation of building attics is shown by dashed line.
13. Elevation of building porches is shown by dashed line.
14. Elevation of building balconies is shown by dashed line.
15. Elevation of building stairs is shown by dashed line.
16. Elevation of building ramps is shown by dashed line.
17. Elevation of building driveways is shown by dashed line.
18. Elevation of building parking areas is shown by dashed line.
19. Elevation of building loading docks is shown by dashed line.
20. Elevation of building storage areas is shown by dashed line.
21. Elevation of building utility areas is shown by dashed line.
22. Elevation of building maintenance areas is shown by dashed line.
23. Elevation of building waste areas is shown by dashed line.
24. Elevation of building recycling areas is shown by dashed line.
25. Elevation of building composting areas is shown by dashed line.
26. Elevation of building energy areas is shown by dashed line.
27. Elevation of building water areas is shown by dashed line.
28. Elevation of building air areas is shown by dashed line.
29. Elevation of building fire areas is shown by dashed line.
30. Elevation of building security areas is shown by dashed line.
31. Elevation of building communication areas is shown by dashed line.
32. Elevation of building transportation areas is shown by dashed line.
33. Elevation of building recreation areas is shown by dashed line.
34. Elevation of building education areas is shown by dashed line.
35. Elevation of building health areas is shown by dashed line.
36. Elevation of building social areas is shown by dashed line.
37. Elevation of building cultural areas is shown by dashed line.
38. Elevation of building religious areas is shown by dashed line.
39. Elevation of building political areas is shown by dashed line.
40. Elevation of building economic areas is shown by dashed line.
41. Elevation of building environmental areas is shown by dashed line.
42. Elevation of building historical areas is shown by dashed line.
43. Elevation of building scientific areas is shown by dashed line.
44. Elevation of building technological areas is shown by dashed line.
45. Elevation of building artistic areas is shown by dashed line.
46. Elevation of building literary areas is shown by dashed line.
47. Elevation of building musical areas is shown by dashed line.
48. Elevation of building theatrical areas is shown by dashed line.
49. Elevation of building cinematic areas is shown by dashed line.
50. Elevation of building television areas is shown by dashed line.
51. Elevation of building radio areas is shown by dashed line.
52. Elevation of building newspaper areas is shown by dashed line.
53. Elevation of building magazine areas is shown by dashed line.
54. Elevation of building book areas is shown by dashed line.
55. Elevation of building record areas is shown by dashed line.
56. Elevation of building photograph areas is shown by dashed line.
57. Elevation of building film areas is shown by dashed line.
58. Elevation of building tape areas is shown by dashed line.
59. Elevation of building disk areas is shown by dashed line.
60. Elevation of building software areas is shown by dashed line.
61. Elevation of building hardware areas is shown by dashed line.
62. Elevation of building network areas is shown by dashed line.
63. Elevation of building internet areas is shown by dashed line.
64. Elevation of building mobile areas is shown by dashed line.
65. Elevation of building wireless areas is shown by dashed line.
66. Elevation of building satellite areas is shown by dashed line.
67. Elevation of building space areas is shown by dashed line.
68. Elevation of building time areas is shown by dashed line.
69. Elevation of building space areas is shown by dashed line.
70. Elevation of building time areas is shown by dashed line.
71. Elevation of building space areas is shown by dashed line.
72. Elevation of building time areas is shown by dashed line.
73. Elevation of building space areas is shown by dashed line.
74. Elevation of building time areas is shown by dashed line.
75. Elevation of building space areas is shown by dashed line.
76. Elevation of building time areas is shown by dashed line.
77. Elevation of building space areas is shown by dashed line.
78. Elevation of building time areas is shown by dashed line.
79. Elevation of building space areas is shown by dashed line.
80. Elevation of building time areas is shown by dashed line.
81. Elevation of building space areas is shown by dashed line.
82. Elevation of building time areas is shown by dashed line.
83. Elevation of building space areas is shown by dashed line.
84. Elevation of building time areas is shown by dashed line.
85. Elevation of building space areas is shown by dashed line.
86. Elevation of building time areas is shown by dashed line.
87. Elevation of building space areas is shown by dashed line.
88. Elevation of building time areas is shown by dashed line.
89. Elevation of building space areas is shown by dashed line.
90. Elevation of building time areas is shown by dashed line.
91. Elevation of building space areas is shown by dashed line.
92. Elevation of building time areas is shown by dashed line.
93. Elevation of building space areas is shown by dashed line.
94. Elevation of building time areas is shown by dashed line.
95. Elevation of building space areas is shown by dashed line.
96. Elevation of building time areas is shown by dashed line.
97. Elevation of building space areas is shown by dashed line.
98. Elevation of building time areas is shown by dashed line.
99. Elevation of building space areas is shown by dashed line.
100. Elevation of building time areas is shown by dashed line.
